# Silver Lining

We maintain our target price at RM1.70 with a NEUTRAL call. The fair value is based on a 10x PER pegged to its estimated FY16 EPS of 17 sen. We believe this stock will be able to rebound as the group is currently being affected by the weak market sentiments. The much-heralded revolution in the Internet of Things (IoT) will only make its impact in the future and accelerate the sales for ECS's distribution services.

#### **Earnings Review**

A total of 6.1% drop in revenue terms was recorded for ECS this quarter compared to Q3FY15. This quarter, the group managed to record a total revenue of RM436.9mil while in Q3FY15, the group's revenue was RM465.1mil. Despite the drop in the group's revenue, PAT improved YoY from RM4.75mil to RM6.15mil. The improvement in PAT translated to a 30% growth in PAT YoY. The decrease in revenue was due to the slower sales in the ICT Distribution segment. As the Enterprise Systems segment recorded an increase in revenue and a better GP margin, this translated into an improvement in PAT. The group's revenue after 3 quarters clocked in at RM1.27bil, standing at 71% of our FY16 forecast. We remain optimistic about the group as traditionally, the last quarter is the best quarter for ECS due to the yearend festivities. Government spending also rises as there is a tendency to spend the unutilised portion of budget allocations.

#### **Interim Dividend**

The group declared a 3 sen interim dividend with a dividend yield of 2% in conjunction with the release of the 3<sup>rd</sup> Quarter results. The group is still committed in paying a minimum dividend payout ratio of 30% despite the weaker market sentiments.

#### **Expansion of product portfolio**

ECS is introducing Enterprise Flash Memory Storage to replace the conventional hard disc drive storage to their Enterprise Systems clients. ECS is also looking to add value to its ICT Services business segment. As for the ICT distribution range, the group continues to be in discussion with different vendors to bring in the latest technology products. One of the latest additions to ECS's portfolio is the DJI Mavic Pro, a portable drone which when folded, is around the size of a water bottle.
