

VSTECS EXPANDS POWER SOLUTIONS PORTFOLIO WITH DISTRIBUTORSHIP FOR HUAWEI

Kuala Lumpur, Malaysia, 27 April 2023 – **VSTECS Berhad** (**VSTECS**, 偉仕佳杰, Stock Code:5162) ("**VSTECS**" or the "**Group**"), Malaysia's leading Information & Communications Technology ("**ICT**") distributor, has through its wholly-owned subsidiary, VSTECS Pericomp Sdn Bhd, signed an agreement with Huawei Technologies (Malaysia) Sdn Bhd (**Huawei Malaysia**) to distribute its Digital Data Center Facility products and services.

Pursuant to the collaboration, VSTECS intends to continue to promote and sell Huawei's Data Center Facility products and solutions for the development of intelligent, efficient and sustainable data centers. Huawei offers energy-efficient, scalable, reliable, secure, and flexible solutions, meeting most businesses' evolving needs. Leveraging each other's strengths, the partnership is expected to provide highly competitive services across the industry.

In order to help customers achieve the goal of carbon neutrality, Huawei continues to innovate around clean power generation, green ICT energy infrastructure and integrated smart energy. By leveraging its global expertise in digital technologies and power electronics, Huawei has developed all-scenario low-carbon energy solutions, covering the whole energy flow from green power generation to efficient power consumption.

Mr. JH Soong, Chief Executive Officer of VSTECS, stated: "As businesses increasingly rely on digital platforms, the need to store and process large amounts of data in a secure and efficient manner is growing rapidly. This, coupled with increasing privacy regulations has increased the demand for green and intelligent data centers in Malaysia. We are enhancing our power solutions portfolio through this new distributorship and will be adding more green, renewable energy products and solutions in the near future."

Mr. Chong Chern Peng, Vice President of Huawei Malaysia Digital Power Business, stated: “Huawei’s data centre solutions have earned global recognition from customers, partners, and industry professionals and are put into real-world use in diverse industries around the world, from carriers, colocation (COLO) providers, and governments, to enterprises.

With a robust sales network and outstanding aftersales services, VSTECS is a trustworthy and reliable partner to us. I look forward to continue working together with them in promoting data center facilities, further expanding the solar industry across Malaysia, keeping abreast of sustainability trends and in assisting the nation in meeting its carbon neutrality goals.”
